

REPLEX PLASTICS ANNOUNCES:

Low Cost Mirrors for Solar Concentration

Why Mirrors? It's simple!!! Until now, the capital cost for generating electricity by solar power has been the barrier for rapid acceptance and growth. But with the combination of a Replex Mirror and the today's PV technology, the cost per kWhr can be dramatically reduced and is now gaining interest & acceptance world wide.

It is our mission to be a world leading mirror supplier, but our most strategic objective is to collaborate with other companies in commercial system development and research. Please call us to discuss your application at 1-800-886-8847. Replex supports a Green Environment!

Replex' Current Mirror Products:

In addition to a growing line of Solar Concentration Mirrors, Replex also manufactures custom mirrors for the following industries:

- ◆ Concave/Convex Mirrors
- ◆ Public & Personnel Safety – Hospitals, Warehousing
- ◆ Facilities Surveillance - Retail
- ◆ Transportation – Buses, Trucks, Automobiles, Fork Lifts etc.
- ◆ Automated Teller Machines – ATM's
- ◆ Cosmetics and many others...
